▭ **Visa Status:** Employment visa - Berkeley

## SUMMARY

I'm switching from designing to coding because I love coding and I'm always eager to learn more. I want to use my problem-solving skills and coding abilities to work on challenging projects and help out with technical stuff.

## WORK EXPERIENCE

### Supervisor                                   Berkeley – Emirates Linencraft (2025 –Present)

- Applied IT-driven automation, data analysis, and reporting to improve workflows.
- Developed workforce reports leveraging software solutions for accuracy and efficiency.
- Managed staff data, payroll, and schedules using ERP and reporting tools.
- Coordinating workforce activities to ensure smooth daily operations and service efficiency.

### Web Designer                                                 Jay4Web (2023 – 2024)

- Delivered end-to-end website solutions, ensuring seamless functionality and design.
- Executed robust quality checks to maintain high performance and client satisfaction.
- Collaborated with teams to align project deliverables with business goals.

### Software Developer                             Don Bosco Management (2022 – 2023)

- Built and deployed a fee management system using C#, SQL, and WinUI.
- Streamlined development processes, meeting milestones with precision.
- Partnered with stakeholders to create scalable, tailored software solutions.

## PROJECTS

### Fee Management System (DBASC)

Developed a robust fee management application for tracking payments and generating detailed student-based reports, integrating course fee structures and student data.

Tech Stack: C#, SQL, WinUI, HTML, CSS

### Brisk Management System

Created a comprehensive vehicle and fleet management solution for real-time tracking, order booking, and report generation.

Tech Stack: PHP, SQL, HTML, CSS

## EDUCATION

| | | |
|---|---|---|
| 2021-2023 | MCA at Don Bosco College Angadikadavu Kannur | CGPA - 7.25 |
| 2018-2021 | BCA at Kristu Jayanti College Bengaluru | CGPA - 7.81 |

## CERTIFICATIONS

- AWS Academy Graduate -AWS Acedemy Cloud Foundation
- TCS IO Career Edge -Young Professional
- Become a certified Web Developer From Scratch
- Impact of AI in Real World Application, SkillRary

## SKILLS

| | |
|---|---|
| Programming Languages & Frameworks | HTML, CSS, JavaScript, Bootstrap, PHP, C#, Python (Django), MySQL, PostgreSQL, React, Node.js, Java. |
| Design Tools | Figma, Photoshop, Illustrator (AI). |
| Strengths | Proficient in creating interactive websites, problem-solving, and optimizing operational performance. |
